

LOCINOX USA

The **Locinox Titan Gate Closers** are some of the finest gate closers available, designed specifically for outdoor use. Manufactured with stainless steel components. These closers are recommended for heavy gates, such as those constructed of steel or wood. It would be difficult to open when used on lighter gates. Powerful, but smooth closing, can be used for gates that are between 42" and 48" wide and up to 8 feet tall. These closers can handle gates or doors weighing up to 180 lbs. Easy to install with no welding required. Never worry about whether you closed the gate again!

Features
